CHIROPRACTIC

The Chiropractor does not ask forty different questions to find out what is the matter with your stomach. The average M. D. expects Specialist and Surgeon will put all sorts of questions to you and will go to you something like this—"Do you have pain in your stomach? Loss of appetite? Dyspepsia? Indigestion? Bad taste or breath? Bloating? Headache? Heartburn? Sour Stomach? Belching? Spitting? Gurgling? Nervousness?" Now what man would the doctor want to know to decide that you had Stomach Trouble? Anyone could tell they had Stomach Trouble, if they knew they had it, but still people will wonder how the Great Specialist can tell that a person has Stomach Trouble. Why, in a round about way, he has asked you all about your Stomach and you have told him yourself what your trouble is. Now notice the difference in the Chiropractors—We never ask symptoms. The Chiropractor locates the cause of your trouble in your spine. Each vertebra is supported by a cartilage between the vertebrae (spinal bones) a nerve passes. The cartilage becoming crushed thru accident, fall, heavy lifting, etc. It may have happened to you some years ago, but is bound to show up sooner or later in the form of disease and sickness because of the delicate nerves being pinched between the two vertebrae coming closer together. Almost every ailment is cured by the Chiropractic Science. If you suffer from sickness and are at once. Nothing is gained by delay and your condition constantly becomes worse. Do you want proof? It's here. Many of those who are well and have been benefited will tell you. Read the free booklet "Explanation of Chiropractic."

Neighborhood News.

The relatives and friends of Alfred Bonnevillie, the seventeen year old boy who was lost near Rib Lake while hunting last November are apparently convinced that he was murdered and have hopes of recovering the body. A curious expedition is given as the cause of their conviction. It is stated that a Mr. Harris, who calls himself the human magnet, came there and offered to find the body. Then he bought a knife and took the trail, accompanied by two men. They followed what Harris claimed was the trail until the knife turned in Harris' hand, and there Harris had them dig, and the latter stated that they found a spot of blood 3 by 2 feet in size, and in the knife the men claimed they could see the reflection of two men running away. This was repeated at another spot, and Harris asserted that Alfred was buried somewhere near there and that he would find him when he returned from California, where he had to go on urgent business. It is said that the family and friends believe implicitly in Harris and are confident the boy was murdered and will be found near where Harris said.

Stevens Point Journal.—As the result of negotiations which have been carried on in this city and South for some time past, the ownership of the Stevens Point Paper Co. has come into the possession and control of George A. Whiting and J. B. Whiting of South, and E. A. O'Connell of this city. The plant will hereafter be known as the Whiting Paper Company of Stevens Point. The capital stock of the company has also been materially increased. Extensive improvements have been planned including the erection of a handsome new office building, water house and many changes in the mill proper, which will make it one of the best writing paper plants in the state.

Wausau Record.—James Garland, an electrician who has been in the employ of the Wausau Sulphate Fibre Company since its plant was built at Mosinee was instantly killed yesterday morning by coming in contact with a live electric wire. Mr. Garland was working in the power house, being engaged in repair work which necessarily is done on Sundays. He was near the roof of the building, standing on a ladder, and it is supposed he stepped with his right foot from the ladder onto one of the high tension wires. The shock must have caused almost instant death, the body falling to the floor below. On the bottom of the right foot was a black spot, it evidently being the point of contact and with in a little while the entire body is said to have turned black. Deceased was about twenty five years of age and his home was in Rhinelander. His father arrived in Mosinee today to make arrangements for the funeral, the body to be taken to Rhinelander for interment.

Hospital Association Organized.

A meeting was held by a number of our public spirited citizens on Tuesday and an association organized for the purpose of taking over the River-view Hospital and operating same in the future. The officers elected were Mrs. I. P. Witter, Dr. O. T. Hogen, Mrs. L. W. Ellis, Geo. W. Mead and Mrs. J. T. Wright. The officers of the new association were elected as follows—

President—Geo. W. Mead
Vice Pres.—Mrs. I. P. Witter
Secretary—Mrs. J. T. Wright
Treasurer—Mrs. L. W. Ellis
During the past year the hospital has been owned by the Grand Rapids Hospital Association an organization with capital stock and created for the purpose of making money. The new organization will be known as the River-view Hospital Association and is without capital stock, and is not organized as a money making proposition.

Memberships will be sold at \$5 each and anybody can become a member of the association; in fact, it is hoped and expected that enough memberships can be sold and with what contributions are received to insure the upkeep of the hospital without further trouble. These interests have already commenced interviewing our citizens and the prospects are good. All agree that the hospital is a good thing for the city and there is no doubt but what the people will respond if they are properly approached.

Stockholders Meeting.

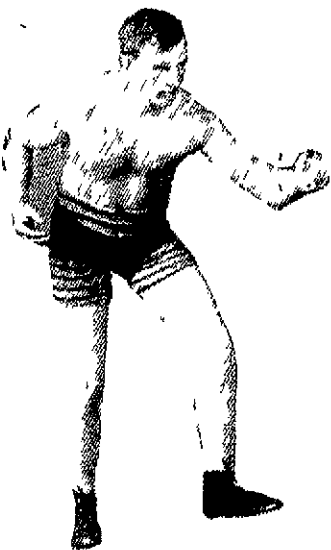

The regular annual meeting of the stockholders of the Wood County Telephone Company will be held at the city hall on Monday evening, January 8, 1912. All stockholders are requested to be present.

Some Winter Weather.

Mercury registered 18 below zero on Tuesday morning and 17 below this morning. This was a very conservative thermometer. Others were six or eight degrees below this.

Wrestling Match at Rudolph.

John Little of Milwaukee and Ben Hibbard of Marshfield will wrestle at Rudolph on Friday evening, January 5th, best two out of three falls. Winner to take \$20 and loser 20 per cent of the gate receipts.

Little is well known to people in this section having wrestled several times here and is a good man. He goes onto the mat at 161 pounds and challenges anybody in the northwest at this weight, and it is the opinion of those who have seen him wrestle that he can make good with the best of them.

Hibbard has been at Marshfield for some time past, but is not so well known. He challenges any man in the world at 112 pounds and is a well built young man and looks as if he might be able to give a good accounting of himself.

The match will be held at Marquette hall, and it is expected that a number of sports will go on from this city to see the match.

Fourth Class Postmaster Examination, Sat., Jan. 20, 1912.

The United States Civil Service Commission announces that on the date named above an examination will be held at Surlin, Wis., as a result of which it is expected to make appointments to fill a contemplated vacancy in the position of fourth class postmaster of class B at Vandusen, Wis., and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was \$41 for the last fiscal year.

Age limit, 21 years and over on the date of the examination, with the exception that in a state where women are declared by statute to be of full age for all purposes at 18 years, women 18 years of age on the date of the examination will be admitted. Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements. Application forms and full information concerning the requirements of the examination can be secured from the postmaster at Vandusen, Wis., or from the U. S. Civil Service Commission, Washington, D. C. Applications should be properly executed and filed with the Commission at Washington within 7 days before the date of the examination, otherwise it may be impracticable to examine the applicants.

Change of Name.

Beginning with the first of the year the name of the Central Hardware Company has been changed to the Nash Hardware Company.

There will be no change in the personnel of the firm and the business will be run along the same lines as heretofore, the change being made merely to prevent confusion.

Will Get a Reserved Seat.

The Lord Loveth a cheerful giver," or words to that effect. However, if you think this is a Merry Christmas salutation or a Happy New Year sermon, you are badly mistaken.

It is about a generous man who lives in our town. It is a little bit late for Christmas stories, but when you find a man who is really and truly generous, one who plans to go out of his way to do something for his fellow being, one whose right hand is over his left, one who is ready to help the needy, that man should be honored. His name should be painted on the fireman's wagon, or some other prominent place, where people can see it read often. But to get back to the original subject. When we get to talking about generosity and kindred virtues we are apt to wonder so far from the theme that we forget whether it was a largeness of movement or just a piece of ragtime we were engaged on.

Well, anyway, this liberal man that we started to tell about had saved up his spare pennies until he had about twelve hundred dollars in the bank for which he had received certificates of deposit.

Then, one day about Christmas time when he pulled his hand out of his pocket to give a dollar to a beggar, the certificate of deposit were pulled out also and lost.

Now the losing of a certificate of deposit is a matter of a calamity as they can be replaced, but this man was quite worked up about the matter. Probably his having given away so much money in his lifetime caused him to realize that he would have to look after things pretty closely if he wanted to escape spending his declining years in the poor house. So he came to the Tribune office and all verified his loss, offering a reward for their aid to return. Of course everybody reads the Tribune and it was only a few minutes after the papers were delivered to find the man who had found the certificate was on deck with the lost property.

When the liberal man realized that his property had fallen into honest hands and was about to be returned to him, tears of gratitude almost came to his eyes. He was almost tempted to shake hands with his rescuer, but realizing that some thing more substantial would probably express his feelings in better style he was for a moment at a loss what to do about it. Then a happy thought occurred to him and he offered to take his neighbor down and buy him a glass of beer.

The honest neighbor withstood the shock, however, and refused the beer, and at last reports he was getting along as well as can be expected under the circumstances.

As we stated before, "The Lord loveth a cheerful giver."

Died in the West.

Mr. and Mrs. Thos. Batton recently received word of the death of their son-in-law, A. R. Oster, who died at Phoenix, Arizona.

Mr. Oster married Miss Anna Batton at Rudolph about 20 years ago, at which time he was a telegraph operator at Junction City. Since then he has risen in the railroad business until he was a trusted employee of the Arizona Eastern & Southern Pacific. The following notice concerning him is from the Arizona Star.

The funeral of the late A. R. Oster, for many years a trusted employee of the Arizona Eastern & Southern Pacific of Mexico railroad lines, was a beautiful tribute to the man who was much loved by all who knew him. The service took place at Parker chapel and was concluded with Masonic rites at the grave.

Among those in attendance at the funeral were Glen Taylor, secretary of the Arizona Eastern, J. G. Mallard, superintendent of the Globe division of the road, J. G. Lindsey, assistant superintendent of the Maricopa & Phoenix division; R. W. Clapp, general freight and passenger agent of that line; and Judge Oster, brother of deceased, who is superior judge of San Bernardino county, California.

The coffin was banked high with beautiful cut flowers in designs and otherwise, and the Masonic ceremony at the grave never seemed sweeter and more impressive. Judge Oster brought the sad news that their mother, who had been in Tucson and had many friends here, died the day after her son. It is believed as a result of the shock of the news of his death. Judge Oster returned to California last evening. Deceased is survived by his widow and daughter, who are at present at the Santa Rita.

Dogs Have Dumb Rabies.

During the past month a number of dogs have died in this city of a peculiar disease which at first baffled the veterinarians in the city, but which was later diagnosed by Dr. Norton as dumb rabies. Many of the dogs in this city have been afflicted with the disease, and while the symptoms differed widely, the dogs generally died. The only dog to escape death is one from DeLorenzo that Dr. Norton took charge of early in the game, and to which he gave the Postum treatment. This dog is still alive and is apparently going to entirely recover.

The head of one of the dogs that died of the trouble was sent to Madison by Dr. Norton and on Tuesday he got a report from it stating that it was a case of rabies. It might be stated that nearly all of the dogs that have died from the disease were bitten by some other dog, but it can be said that the city, fighting all the canines he met, and which was afterward shot and the head sent to Madison for examination. The report being that it had rabies.

None of the dogs that have been afflicted with dumb rabies have shown any tendency to bite other persons or other dogs so that it is probable that the disease has not been spread any by the recent outbreak. There are many misconceptions about rabies or hydrophobia and an article is given below which is a short synopsis from some of the eminent authorities on the subject.

Rabies.
A disease originating in the canine, and less frequently, in the feline. During the progress of the malady a specific virus is developed in the saliva of the affected animal, which, being implanted thru a wound, break or thin epidermis with an abrasion, causes the disease in other animals and to man. After an incubation period of latancy, it causes pain and stiffness in the bitten part, followed by convulsions, inability to swallow liquids, a tendency to bite, great prostration, paralysis and death.

Rabies in its milder form, hydrophobia (Dysphagia or Pharyngitis), is said to be well known to Dr. Humer in 1271 and applied by him, with his usual critical exactness of simile, to the havoc with which Homer swept thru the battlefield of his enemies.

Among the greatest scientists to study the disease are Ray, Swift, Savignac, Gellon, Mead, Bawley, Yonah and M. Pasteur. The common opinion of all is that the disease never originates except by inoculation. The period of latancy after inoculation is very indefinite, varying in different animals. That the disease cannot be conveyed to man, mammals or birds, by the usual media at a later period than 24 hours after death of the animal or after emaciation rigidly (Rigor mortis) has completely invaded the body, and one-fourth of all animals bitten by rabid ones escape the infection.

Instead of having fear of water as many suppose the thirst is increased. More cases develop in cold than in warm weather. The disease presents itself in two forms, furious and dumb rabies.

In the dumb form the ability to bite is lost and there is no tendency to harm of life surrounding objects. Bark unusual, and in the dumb form the symptoms are paralysis of the jaws with inability to close the mouth or a paralysis of the limbs, pupils of eyes greatly dilated. This is dumb rabies.

Various rabies.—The animal becomes restless, dull, watchful, choosing solitude, lying down then jumping up again in an excited, unnatural manner. In the early stage the desire to bite is not observed. As the disease progresses the eyes stare, the animal goes through all kinds of peculiar stunts getting more nervous biting at anything in sight, cannot swallow solid foods. Animal has a dread of water but suffers from thirst, but cannot swallow even liquids. Animal dying from suffocation, or paralysis or exhaustion.

Entertained Their Friends.

Misses Harvie and Cecil Fegert entertained large party of young people at their home last Thursday evening. The affair started out with a dinner, as the conclusion of which the young people were entertained for several hours at the rink where they indulged in roller skating. They report a most enjoyable time.

Concert Well Received.

The concert given by the band, assisted by local talent, at Daly's Theatre New Year afternoon was well received and gave universal satisfaction. The band played several nice selections in good shape under the direction of Prof. Merrill. The concert recently received a new Comm. certificate which he pronounced to be the finest instrument he has ever heard of being of exceptionally sweet tones and very easy blowing. As he has had years of experience and is an artist on the instrument it is a fine recommendation for the band.

Then Mrs. Charlotte Lynn Campbell rendered several fine vocal selections the first one of which was accompanied by the band, and the others by Mrs. I. P. Witter. Grand Rapids people always like to hear Mrs. Campbell sing, and this occasion was no exception to the general rule and she was compelled to respond to an encore very many times she appeared.

Prof. Merrill played a violin solo with his usual skill and was certainly a master of the violin and his work is always most acceptable to an audience. Dr. Bandelin played a charming solo with his usual style and ability and responded to an enthusiastic call for more.

Between the first and second part Ray Smith made a few remarks on the subject of hospitals in general and the Grand Rapids hospital in particular which were listened to with close attention by the audience. This ladies cleared about \$50 by their efforts which was very good everything considered.

Narrow Escape at Nash Store.

The Nash building in which is located the Nash Grocery Co. store and the Central Hardware Co. store had a narrow escape from a serious fire on Monday evening shortly after eleven o'clock. As it was the damage was only nominal, what there was being caused by water used in extinguishing the blaze.

The fire originated in the basement under the grocery store and caught on the smoke pipe leading from the steam heating plant to the chimney. This pipe is a foot or more from the work above it, and would seem to be perfectly safe to look at it but there was enough heat there to set fire to the wood.

A look at the circumstance connected with the fire was the fact that Rob Nash was in the building at the time and smelling the smoke, went into the basement and discovered the blaze. There was a water tap near by and with the use of pails, and help from outside, the fire was soon extinguished.

"The Roary."

—I have always believed that a play dealing with the tremendous power of our human thoughts was really needed upon the stage. Man and woman rise in the morning and go about their work heedless of the fact that it is their own attitude of mind that brings them success or failure. That is what is shown in "The Roary," a beautiful new play from the pen of Edward D. Ross and produced by Messrs. Gaskell and McVitty, which will play at Daly's Theatre, Thursday, Jan. 11.

You can see the effect of thought upon the different individuals. One character is that of a business man happily married to a wife who loves him. But his thought is wrong. He becomes sour, doubtful and unbelieved in the good that live all around him. He loses all, fortune, friends, home, wife, even his own self-respect. How does it all end? Go and see "The Roary." It comes direct from three months in Chicago.

Can't See It Our Way.

Apply, Wis., Dec. 20, 1911. Gentlemen.—The little episode in your issue of Dec. 27, headed "A Mail Order Deal," is rather amusing in the fact that it shows that people of the New State are as yet not keeping very close tabs on Uncle Sam's servants by allowing them to charge a fee of five cents on a P. O. money order for \$1.50. This appears as if the Post Office business in that state were monopolized by private individuals. (It could be possible that the best of the south exports the five per cent above the government standard.

We believe it would be a wise plan to advise our southern brother to buy his money orders in northern markets where neither private monopolies nor atmospheric conditions can overdraw the purse of the purchaser but to that as it may if Mr. man had gone to the Post Office and sent the money order to the dealer and had had intelligence enough to include in his order a pair of shoes, some colored, a horse collar, a few boxes of DeWitt's Eucalypti, a dozen yards of calico, a new hat for his wife, a doll for the baby, and he might have included a box of laxatives for himself, etc. so the whole order would have amounted to a hundred pounds of merchandise. Mr. Square Dealer would have had the sharp edges of his home-made conceit somewhat rounded off bustling the goods together and boxing them for shipment.

The way this merchant would have figured it out would have had a tendency to open his eyes when he tried to do business on a mail order basis. It would give him a good clean cut impression of what he would lose from his profit when trying to compete with mail order houses. He would then take a different view of the situation, stop hollering about the taxes he pays and discontinue blowing ruts in country roads with his auto pay more taxes, and by high price notes lighten peoples' homes when on their way to patronize their home dealer, obliging them to send an order to Sears, Roebuck & Co. from their nearest mail box.

It would be a good thing if people could educate their children by mail also. The roads could then be kept clear, and our generous tax-payers given clear sailing. Respectfully,
A Wood County Farmer.

Discussions Invited.

In view of the fact that many of our local business owners are unable to play their vacation during the winter months on account of not being able to hold an audience, we would be glad to extend to them the columns of the Tribune in which to discuss the questions of the day. Several of our grocery store keepers have removed their wood stoves and substituted stoves, during the past season which has also a tendency to discourage the expression of learned opinions, so that we feel that we are doing our friends and the community at large a favor by making the offer that we do.

In the present time the commission form of government is occupying the attention of many of the voters of the city and it probably will not be a great while before they will be called upon to express their desire at the ballot box. Some of them have already made up their minds while others are on the fence and anxiously looking for information on either side of the question. It is for the benefit of the latter class that we would like to see the matter discussed.

It makes no difference which side of the question you may be on. If you have an idea on the subject and would like to have it conveyed to your fellow man, write it out and send it to the Tribune and we will be glad to publish it.

Sign your name to the article so that we may know who it is from, although your name will not be published unless you wish it to be. It is possible that considerable light may be thrown onto the subject in this manner that would not be otherwise.

School Board Convention.

The annual school board convention was held in this city on Friday and there was a good attendance, there being about 175 percent from different parts of the county. Those in attendance report that the meeting was a most profitable and instructive one, and feel that their time was well spent.

Among those on the program were Rural School Inspector Larson of Madison, Prof. Chas. W. Rohwede of this city, Rev. W. R. Greber of Pittsville and Principal J. D. Roscoe of Pittsville.

MYSTERY OF GLASS.

A correspondent recently reported what he described as the "curious freak" of a blackbird flying against a pane of glass. Such an incident is not uncommon. Birds have been known to fight for hours at a time, day after day, with their own image reflected in a pane of glass, pecking and fluttering against the pane and quite exhausting themselves in their fury to demolish the supposed rival. It is another instance of how the arts of our civilization corrupt and confuse the birds. It is the same with fishes. Darwin tells a story of a pike in an aquarium separated by plate glass from fish which were its proper food. In trying to get at the fish the pike would often dash with such violence against the glass as to be completely stunned. It did this for more than three months before it learned caution. Then when the glass was removed the pike would not attack those particular fishes, but would devour others freshly introduced. It did not at all understand the situation, but associated the punishment it had received not with the glass, but with a particular kind of fish. Darwin's American monkeys proved themselves "knowing." When they cut themselves once with any sharp tool they would not touch it again or else would handle it with the greatest caution. Thus they gave evidence of the simpler forms of reason of which monkeys are no doubt capable, but birds are evidently lacking in reasoning powers.

Whatever may be said of the ex-king of Portugal, he has a envying sense of humor. Incontinently dumped out of his regal position, he makes his home near London, from which vantage point he can watch the efforts of those who dethroned him. Down in his heart, of course, there must be anger combined with regret that he is no longer the official head of his country, but if we may believe the reports, ex-king Manuel is not out of his heart out on that or any other account. The most recent international gossip that the duke de Vieux has fallen heir to the role of the Portuguese pretender, and is endeavoring to so interest an American woman that she will back up his efforts with her money (her daughter is his wife) must amuse the ex-king, says the Cincinnati Times-Star. These close to him any he is most frank in declaring that he has no anxiety to gain the throne again—just yet. Portugal, according to Rev. Dr. Gaster, who is said to know the situation, "will not be a republic long." But Dr. Gaster believes that if the throne is regained it will be for Manuel, not the Duke de Vieux. Meanwhile the young Braganza, doing his own thinking, makes use of that excellent old saying: "Patience—and shuffle the cards."

The old question, "Do lightning rods protect?" has been referred to Thomas A. Edison, and Mr. Edison replies: "One or more metallic conductors at least one quarter inch in diameter of either iron or copper, without joints, when connected to a proper amount of metallic surface connected with a permanently damp earth, will certainly protect a house from being affected by lightning. Any metallic surface on roofs, etc., when connected with rods, will increase protection." That ought to settle that.

Not long ago a New York tea drinker was reported as saying that 60 cents' worth of tea would make twice as many cups of beverage as the same value represented in coffee. This has brought forth a calculation showing still more in favor of the economy of tea. A pound of coffee that costs the public 30 cents, it is asserted, will make only 45 cups of good coffee, while a pound of tea, costing 60 cents, will make 25 to 500 cups of tea. So tea costs from one-fourth to one-third as much as coffee.

FEAR OUTBREAK AT TEHRAN

Parliament Buildings Are Guarded by Soldiers After Recent Dissolves Mejliss—Shuster Is Strongly Supported by Public Sentiment.

Tehran, Persia.—The cabinet has notified St. Petersburg that W. Morgan Shuster, the American treasurer general, has been dismissed and elected to the acceptance of all Russian demands. This followed the unlooked-for dissolution of the Mejliss by the regent's firman.

Members of the dissolved Mejliss are indignant at the action of the regent and the cabinet and excitement runs high throughout the city. Fearing an outbreak soldiers have been posted around the parliament buildings, guarding all approaches.

Mr. Shuster has not yet been officially notified of the adverse action of the cabinet and continues to hold the fort. He is waiting for a deputation to beg that he retain his office in defiance of the cabinet. Popular feeling is strong in support of Mr. Shuster.

Telegraph communication with Tabriz is still interrupted, but late information from there indicated that the fighting continued spasmodically. The Russian reinforcements have not yet arrived and the Russians at Tabriz are being pressed. Many are dead. The Russians, according to the reports received here, are guilty of atrocities unparalleled in recent years. This news has aroused the population of Tehran to a frenzy of rage and excitement.

The Russians have killed more than 500 women and children alone. Houses in Tabriz were entered indiscriminately and women attacked because the eyes of other members of the family, while the children were not spared. The Russian children were moved down every living alleyway in the streets, once the barricades, thrown up by the Persians, had been destroyed.

The city of Roshk is reported quiet. The Russian consul has been declared governor there, indicating Russian intention to take possession forthwith of Persian territory.

ATWOOD MAKES NEW RECORD

Aviator Exceeds by Fifteen Miles Longest Previous Flight Made in Hydroaeroplane.

Providence, R. I.—Harry N. Atwood, the Boston aviator, established a new aerial record when he flew 130 miles from Point of Pines, Mass., to the waters of Narragansett bay in a hydroaeroplane. He flew over Boston harbor and Bingham to the Massachusetts south shore and skirting along the south of Cape Cod bay, passed over the new Cape Cod canal and crossed Buzzard's bay into Rhode Island.

Atwood says his flight exceeds by 15 miles the longest previous hydroaeroplane trip.

THRONE IS DOOMED

LEGATE SAYS ONLY REPUBLIC WILL SATISFY PEOPLE.

Consuls of Six Foreign Powers Present Note to Peace Conference at Shanghai.

Shanghai.—"I am convinced that the abdication of the emperor, and the establishment of a republic is the only thing that will satisfy the people of China and prevent further wholesale shedding of blood," this statement was made by Tang Shao-Yi, representative of Yuan Shi Kai, the premier, after the session of the peace conference.

"Peking is not aware of the depth or extent of popular feeling in the south," said he. "Even I, although somewhat prepared, am astonished to find such a change from an attitude of patient forbearance to dogged patriotic determination. It now appears certainly too late to save the dynasty."

The note from the foreign powers, comprising the United States, Great Britain, Japan, Germany, France and Russia, was presented to the representatives of the imperial Chinese government and the revolutionists by the consular corps. The consuls drove first in an imposing carriage to the residence of Tang Shao-Yi and then to the residence of Wu Ting-fang. The scene was very impressive as the two leaders were read separately to the two leading figures in the negotiations and the reply of each, indicating that peace was imminent, was heard.

STORAGE MEN PLAN "KILLING"

Three Hundred Million Dozen of Eggs Are Held in New York for Higher Prices.

New York.—The extreme high price of eggs in New York at this season of the year was partly explained by the statement that there are 300,000,000 dozen eggs in cold storage here upon which the owners hope to make a "killing." It is believed the cold storage trust will still further advance the price of eggs in the next two months, as the speculators are hurrying to make their "pull" before April 15, when the Illinois cold storage bill requires that all foodstuffs shall be held in storage ten months shall be condemned.

NEGRO IS HACKED TO DEATH

Maryland Mob Lynches King Davis. Who Killed White Man—Body Badly Mutilated.

Baltimore, Md.—King Davis, a negro, who shot and killed Frederick Schaw, a white man, at Fairfield, Md., was lynched at Brooklyn, Md. The negro's body was literally hacked to pieces by the mob, who used hatchets at their work.

Nothing was known of the lynching by the authorities of Brooklyn until the chief of police was notified by a newspaper carrier of what had happened. The mutilated body of the negro was found in the rear of the town jail.

NEW PLEA DENIED

PACKERS' DEFENSE IS OUTLINED WHEN COURT OVERRULES OBJECTIONS TO INDICTMENTS.

NO UNDUE INJURY TO PUBLIC

Attorney for Defendant Tells Jury They Will Prove That There Has Been No Violation of Sherman Anti-Trust Law.

Chicago.—Overruled by Judge Carpenter on every objection they had raised, counsel for the packers in the government's prosecution were forced to proceed with their defense without further delay. Replying to the government's arraignment, George T. Buckingham, in an address to the jury, disclosed, for the first time, the full outline of the defense.

Specific denial of every material allegation of the government, together with a promise that most of the statements of fact in the packers' indictments will be disproved, were made by Mr. Buckingham. He indicated that the statute of limitations would be invoked to counteract much of the government's direct evidence. He expressed the belief that the government was relying to a greater degree than was warranted in the prosecution upon circumstantial evidence for proof in the last three years.

It was also indicated that full advantage would be taken of the recent Supreme court ruling that only unreasonable restraint of trade shall be considered a violation of the Sherman law. The jurors will be asked by the defense to find that the procedure of the packers has not resulted in an undue injury to the public.

The main line of the packers' attorneys, however, according to their synopsis, is to be directed to prove that whatever appearance of price agreements or combination there may have been no undue amount of profit has accrued to them.

TO SPEND MILLION ON STATE ROADS

Total of 645 Miles to Be Improved During Year.

500 TOWNS ARE INCLUDED

Wisconsin Will Also Aid in Construction of One Hundred and Forty Bridges at a Cost of \$150,000.

Madison.—Work on roads will be done next year in more than 500 Wisconsin towns, with a total expense of more than \$1,000,000, under the new state aid law, according to an announcement made by the state highway commission today.

Within this amount it is expected to build 220 miles of stone roads, 150 miles of gravel roads, 25 miles of shale road, and 250 miles of dirt road, a total of 645 miles. In addition there will be built 140 bridges costing \$150,000 in 123 towns, making a total for highway improvement of \$1,250,000.

The commission says that this is done in any state during the first year of operations under a state aid law and the outlook for the growth of the road movement in Wisconsin is very bright.

Name State Fair Dates. The state board of agriculture, meeting here, was called upon to accept the following dates for fairs and expositions in the middle west, contained in a report made to the American Association of Fairs and Expositions by the committee on dates at a recent meeting. RUSSIA HITS BACK

DUMA TO PUT PROHIBITIVE TARIFF ON PRODUCTS OF U. S.

Action Is Regarded as Retaliation for the Recent Abrogation of the Treaty of 1832.

St. Petersburg, Russia.—The duma has now before it a legislative proposal to provide for tariff war schedules applicable to the United States at the close of the Russo-American treaty of commerce and navigation of 1832. The measure was introduced by ex-President Guekenko and other signers representing the Octoberists and Nationalists, parties which control the majority of the duma. The bill proposes to raise existing Russian duties by 100 per cent. and to impose a duty of 100 per cent. on articles admitted free under the present Russian tariff.

Besides these impositions the bill proposes to levy double the gross weight of tax established by the law of June 21, 1901, on merchandise arriving by sea and to levy a double tonnage tax.

It is said that the schedules are to be applicable to all countries which do not grant to Russia the most favored nation treatment in commerce and navigation. The proposal will be submitted to a financial committee.

Washington.—The final act in the abrogation of the Russian treaty of commerce and navigation, the so-called passport treaty, was performed when President Taft signed the Lodge resolution.

The treaty will continue in effect automatically until January 1, 1913. Meanwhile efforts will be made to negotiate a new treaty eliminating the cause of friction which led to the termination of the old one.

CITIZENS AROUSED BY "AFFINITY" PAIR

Sheriff of Iowa County Would Arrest Notorious Floppers.

TAR PARTY TALK IS HEARD

Coming of Architect Wright of Oak Park, Ill., and Mrs. Cheney to Bungalow Near Dodgeville Causes Indignation Among Neighbors.

Dodgeville.—Plans for a raid of the new \$10,000 bungalow at Hillside, now occupied by Frank Lloyd Wright, Oak Park, Ill., architect, and Mrs. Cheney, divorced wife of Edwin H. Cheney, of Oak Park, who has been considered by W. R. Pongally, sheriff of Iowa county, in which the bungalow is situated, Sheriff Pongally was at Dodgeville and said that he believed he had the power to raid the home that Wright and the former Mrs. Cheney are now occupying after their second elopement, and that he will not hesitate to act as soon as he is convinced beyond a doubt that he is within the law and receives formal complaints from residents of Hillside, who are talking of indignation meetings to delay ways and means for driving the two from that section of Wisconsin.

Two years ago Wright and Mrs. Cheney deserted their families in Oak Park and went to Europe, where they traveled together as man and wife. The case caused widespread notoriety, which quieted down when Wright returned to his wife and children and was forgiven. Now the coming of the pair to this section of Wisconsin has so outraged residents that some talk is heard of a "party." Officers are prepared to prevent any lawlessness, however.

Millions of Fish Fry Distributed. The state fish commission has just completed the collection of lake trout eggs. Preparatory to the meeting of the commissioners of fisheries in Madison, Superintendent James Nevin has gathered interesting statistics relative to fish culture in Wisconsin.

In the collection of the eggs the department worked 90 boats and crews on the waters of Lakes Superior and Michigan. Over 6,000 quarts of eggs were taken, representing some 42,000,000 eggs. To collect this vast number, 733 lifts of the nets were made, some of them four and five miles in length. Of these eggs, 22,400,000 were sent to the hatchery and 3,700,000 to the Oshkosh hatchery, where they are now in process of incubation. 10,000,000 of the eggs, also, were fertilized and planted back on the spawning grounds of the parent fish.

This is the beginning of the busy time for the employes of the fisheries department. The hatcheries have already in process of incubation the eggs of lake trout, whitefish, blue fish and brook trout.

The rainbow trout will soon appear and before a season closes the department will have propagated thousands of lake trout, whitefish, blue fish and brook trout. The department averages a yearly distribution of 200,000,000 pike fry.

Milwaukee Loses Fish Hatchery. The state fish commission at a meeting made plans for two hatcheries for the propagation of lake fish. One is to be established at Sturgeon Bay and the other at Sheboygan. The last legislature appropriated \$5,000 for each.

The commission had planned to build one of the hatcheries in McKinley park, Milwaukee, but the attorney general ruled that inasmuch as the park was donated by the state, the city had no right to rededicate it to the commonwealth.

Protest was made against the taking of bass fry from the Mississippi river by non-residents for shipment to other states, by a delegation of La Crosse citizens, and the commission promised to take the matter up with the game warden's department.

Get State Commission Jobs. Working fellowships appointments in conjunction with the university and state commissions at salaries of \$600 a year have been made to the insurance and railroad commission.

Fred H. Esch, nephew of Congressman J. C. Esch, was appointed to the railroad commission with George C. Taylor. Mr. Taylor was graduated from the University of Illinois in 1894 and from the John Marshall Law school of Chicago.

He soon accepted a position of principal at the University of Illinois. He served two years as mathematical instructor at Prospect Hill, high school.

Mr. Esch is a Wisconsin 1907 graduate and a law school graduate of 1911. He has practiced law at Milwaukee after a year spent in Berlin, Germany, in study.

A. T. Torge Quits State Post. A. T. Torge, assistant secretary of state, announced his resignation to take effect January 1. Mr. Torge is considering offers to enter business. His friends say he will be a candidate for secretary of state. Mr. Torge has been prominently identified in public affairs for the last twenty years and has been assistant secretary of state for five years. He is a member of the Republican state central committee.

Big Cattle Show Planned. If the plans submitted by Secretary R. W. Leonard of the state board of agriculture are approved by the committee of the respective organizations concerned, the cattle show at the 1912 county fair will probably be the largest ever seen upon the Milwaukee grounds.

Through Sorrow, to Joy.

To labor lies health of body, a mind; in suffering and difficulty is the soul of all virtue and all wisdom. Carlyle.

A correspondent recently reported what he described as the "curious freak" of a blackbird flying against a window many times at the same spot. Such an incident is not uncommon. Birds have been known to light for hours at a time, day after day, with their own image reflected in a pane of glass, pecking and fluttering against the pane and quite exhausted themselves in their fury to demolish the supposed rival. It is another instance of how the arts of our civilization corrupt and confuse the birds. It is the same with fishes. Darwin tells a story of a pike in an aquarium separated by plate glass from fish which were its proper food. In trying to get at the fish the pike would often dash with such violence against the glass as to be completely stunned. It did this for more than three months before it learned caution. Then when the glass was removed the pike would not attack those particular fishes, but would devour others freshly introduced. It did not at all understand the situation, but associated the punishment it had received with the glass. Darwin's American monkeys proved themselves more "knowing." When they cut themselves once with any sharp tool they would cut it again or else would handle it with the greatest caution. Thus they gave evidence of the deeper forms of reason of which monkeys are no doubt capable, but birds are evidently lacking in reasoning powers.

Whatever may be said of the ex-king of Portugal, he has a saving sense of humor. Inconceivably damped out of his regal position, he makes his home near London, from which vantage point he can watch the efforts of those who detested him. Down in his heart, of course, there must be a pang combined with regret that he is no longer the official head of his country; but if we may believe the reports, ex-king Manuel is not eating his heart out on that or any other account. The most recent international gossip that the duke de Vieux has fallen heir to the role of the Portuguese pretender, and is endeavoring to so interest an American woman that she will back up his efforts, is his wife must amuse the ex-king, says the Cincinnati Times-Star. "Times close to him may be most frank in declaring that he has no anxiety to gain his throne again—just yet. Portugal, according to Rev. Dr. Gaster, who is said to know the situation, "will not be a republic long." But Dr. Gaster believes that if the throne is regained it will be for Manuel, not the Duke de Vieux. Meanwhile the young Braganza, doing his own thinking, makes use of that excellent old saying: "Patience—and shuffle the cards."

The old question, "Do lightning rods protect?" has been referred to Thomas A. Edison, and Mr. Edison replies: "One or more metallic conductors at least one quarter inch in diameter of other iron or copper, without joints, when connected to a proper amount of metallic surface connected with a permanently damp earth, will certainly protect a house from being affected by lightning. Any metallic surface on roofs, etc., when connected with rods, will increase protection." That ought to settle that.

Not long ago a New York tea drinker was reported as saying that 60 cents' worth of tea would make twice as many cups of beverage as the same value represented in coffee. This has brought forth a calculation showing still more in favor of the economy of tea. A pound of coffee that costs the public 30 cents, it is asserted, will make only 45 cups of good coffee, while a pound of tea, costing 60 cents, will make 25 to 30 cups of tea. So tea costs from one-fourth to one-third as much as coffee.

In trying to get at the fish the pike would often dash with such violence against the glass as to be completely stunned. It did this for more than three months before it learned caution. Then when the glass was removed the pike would not attack those particular fishes, but would devour others freshly introduced. It did not at all understand the situation, but associated the punishment it had received with the glass. Darwin's American monkeys proved themselves more "knowing." When they cut themselves once with any sharp tool they would cut it again or else would handle it with the greatest caution. Thus they gave evidence of the deeper forms of reason of which monkeys are no doubt capable, but birds are evidently lacking in reasoning powers.

Teheran, Persia.—The cabinet has notified St. Petersburg that W. Morgan Shuster, the American treasurer general, has been disabused and alienated from the Russian side. It is another instance of how the arts of our civilization corrupt and confuse the birds. It is the same with fishes. Darwin tells a story of a pike in an aquarium separated by plate glass from fish which were its proper food. STORAGE MEN PLAN "KILLING"
Three Hundred Million Dozen of Eggs Are Held in New York for Higher Prices.

New York.—The extreme high price of eggs—a figure beyond anything ever known in New York at this season of the year—was partly explained by the statement that there are 300,000,000 dozen eggs in cold storage here upon which the owners hope to make a "killing." It is believed that the cold storage trust will still further advance the price of eggs in the next two months as the speculators are hurrying to make their "pile" before April 15, when the Bronson cold storage bill requires that all foodstuffs that have been in storage ten months shall be condemned.

NEW PLEA DENIED

PACKERS' DEFENSE IS OUTLINED WHEN COURT OVERULES OBJECTIONS TO INDICTMENTS.

NO UNDUE INJURY TO PUBLIC
Attorney for Defendant Tells Jury They Will Prove That There Has Been No Violation of Sherman Anti-Trust Law.

Chicago.—Overruled by Judge Carpenter on every objection they had raised, counsel for the packers in the government's prosecution were forced to proceed with their defense without further delay. Replying to the government's arraignment, George F. Coughlin, in an address to the jury, disclosed for the first time, the full outline of the defense.

Specific denial of every material allegation of the government, together with a promise that most of the statements of fact in the packers' indictments will be disproved, were made by Mr. Coughlin. He indicated that the statute of limitations would be invoked to counteract much of the government's direct evidence. He expressed the belief that the government was relying to a greater degree than was warranted in a criminal case upon circumstantial evidence for proof of violations of the Sherman law in the last three years.

Land Not All Developed.

With more than 10,000,000 of acres of land awaiting development, the state of Wisconsin can well afford to reflect upon the volume and the importance of her latent resources, and see if they may not deserve some of the public attention that up to the present time has been centered upon the undeveloped resources of other states, most of which are so remote from the centers of population that their development means little to the masses of the people. It is surprising that nearly all the forces of the various bureaus of the government at Washington seem to value the resources of the country in the ratio of their inaccessibility, the hazards of development and the problems involved in their use. If an area of undeveloped land is remote enough and enveloped with all possible elements of inaccessibility, enthusiasm in the bureaus is certain to develop, but home making opportunities in a state like Wisconsin, with great markets right at its doors, have little of interest to the boys in the bureaus at the national capital. That they know little of conditions in Wisconsin is evident from the following statement in the advance bulletin of the 18th census on Wisconsin agriculture: "In the northern portion it is rough and in large measure has not thus far been found available for such (agricultural) use."

John P. Hume, manager of the Wisconsin Advancement Association, made a trip to Washington last week, taking with him an overwhelming supply of facts and figures to show that, instead of being unavailable, these areas in the northern part of Wisconsin are peculiarly and specially suited to general farming, dairying, and the successful production of many special crops. Mr. Hume's supply of evidence so fully established all the points of superior farming opportunities in the upper Wisconsin counties that the Director of the Census gave assurances that the final edition of the census will do full justice to Wisconsin. Without attempting to account for such blunders upon the part of the census bureau as above referred to, it is sufficient that a full correction will follow.

But there are other bureaus down at Washington that need to be awakened to the facts that it is not yet necessary to wander off over deserts, or to remote corners of the country to find opportunities for agricultural extension—one of which is the reclamation department, another is the hydrographic bureau—but to this we will give attention in a future article.

Getting First Hand Facts.

Sixty of the Democratic members of the House of Representatives are utilizing the holiday recess to make a first hand study of conditions in the Panama canal zone. Inasmuch as the canal is eating up government money at the rate of several thousands of dollars a day, the Democrats hold that it is their duty to see, personally, that this money is being wisely and properly spent. The question of fortifying the canal will come up soon, and at this will mean a large additional expenditure, the Democrats propose to know just why and where this money is to be expended. Hence they are taking advantage of the temporary lull in affairs at Washington to investigate.

Best Herd of Shire Mares.

Wisconsin is to have the finest herd of English Shire mares in America according to Dr. A. S. Alexander of the College of Agriculture of the University of Wisconsin. This herd is being founded by John J. Mitchell, of Lake Geneva, owner of the Ceylon Court Stock Farm.

The highest price ever paid for a Shire mare, \$6,300, was given by the manager of this farm for Billings, borough Belle, at the Truman sale at Bushnell, Ill., last week. Six mares were bought by Mr. Mitchell at this sale at a total cost of \$18,975. An average price of over \$3,000 per head was paid.

The five other horses secured were: Bottom Lady, \$4,000; Goldham Champion, \$4,000; a yearling by Dan Patch, the champion Shire stallion heading the Ceylon Court Farm, \$1,600; Duchess of Westminster, \$1,800; and the show yearling, Crocus, \$775.

Must Pay Salaries.

A new law adopted by the recent legislature provided that hereafter all town, village and city treasurers shall be paid a salary instead of fees, which have been the recompense in the past in the towns and villages of this country. It will be necessary for the voters to fix the salaries to be paid at the annual meetings to be held next spring and before the town and village elections. The law makes the paying of salaries obligatory.

A Great Farm.

Greatness in farming does not consist in the great number of acres involved but rather in the greatness of human accomplishments that is involved.

The farm of Mr. T. E. Martin in Monroe county in New York consisting of only 87 acres, has been made so successful that a government bulletin has been prepared by the Agricultural Department which describes the farm in detail. Some time in the future we may review the facts set forth in the bulletin but just now we wish to call attention to the fact that there are over ten miles of tile drain on this 87 acre farm. Here is a fact worth thinking about. The story of this farm as printed in the bulletin is too long for our column. It is a story of a poor man commencing with but little capital, running in debt for a run down farm, for tools, team and cows and yet winning out with such success as to be deemed worthy of being made the subject of a Government Bulletin. Below we give the summary of all the accomplishments about this farm:

1. This story gives the struggles and success of a plain New York farmer who remained on the farm through the "hard times" period and succeeded.
2. The farm was an average one for the section and the owner had all the drawbacks of an ordinary farmer, such as indebtedness, lack of capital, running down land, poor drainage, etc.
3. The organization of this farm is the most striking thing about it, making it one of the best farms in the United States. A well developed systematic plan was followed from the first and carried to success.
4. This farm is thoroughly tiled drained with more than ten miles of tile, or 60 rods to the acre, according to a systematic plan followed since 1887.
5. The rotation is the simple one of wheat, clover and potatoes. This is an excellent rotation, because it has two cash crops and one fertility crop every three years.
6. Wheat has averaged 25.6 bushels per acre, for the past twelve years. This past six years show an increase of 5.2 per acre over the previous six years.
7. Clover is the key to the success of this rotation. From uncertain and poor stands, it has become a certainty and averages two to four tons to the acre for the first cutting.
8. Potatoes are the money crop. The average yield per acre for the past nine years have been 382 bushels, an average 189 bushels for the preceding nine years, an increase of 193 bushels per acre due to better drainage, seed selection and better cultivation, fertilizing and spraying methods.
9. Successful farming should be measured not only by financial results but by the resultant productive condition of the soil, the farm home and the farm equipment and conveniences.
10. Measured by net income this farm may be called fairly successful. During the last nine years it has paid the owner an average net return of over \$700 a year, or 7.1 per cent on an investment of \$10,000 and an annual of \$800.
11. A good farm home, an exceptionally fine garden, grounds and home orchard and a model small tool equipment are also marks of success. Perhaps the most striking thing about this farm, outside of its organization, is the remarkable increase shown in the second 9 year period over the preceding 9 year period due to methods employed.
12. This farm is a conspicuous example of model farming that pays. The secret of success is a well developed systematic plan of organization well followed.
13. The Bulletin describes this farm in detail consists of 82 pages well illustrated with cuts and diagrams and may be had by sending to the Chief Division of Publications, Washington, D. C., for Farmers' Bulletin 484.

Hope to Make It Self-Sustaining

As the year draws to a close the best reports is heard of the Northwest Collegiate Institute at Sherry. The early life of this institution of education and religious training was varied but it has weathered the storm and with the same good results in the future that has been attained the past year it will double its usefulness and be self sustaining. The farm on which the institution is built contains 500 acres of rich producing lands, 200 acres of which is under cultivation, and more are being cleared. Twenty good cows are being cared for at the present and it is hoped to increase the herd to fifty another summer. Other sources of revenue are derived from a big coop of college bred Rhode Island Reds, an 80 acre sugar bush, gardening and raising various farm products. The effort now being made is to add more room by building and it is understood sufficient support is in sight for carrying out hopes for plans. At present every student room is occupied, with many more to come if accommodations could be had. Once self sustaining and the dream of the founders will be realized.—Marshall Herald.

"Baby Mine" Coming.

"Baby Mine," Margaret Mayo's hilarious comedy, which is seen for the first time Monday, Jan. 15 at Daly's Theatre, is credited by the New York and London reviewers as being the best constructed comedy ever turned out by any playwright.

"Baby Mine" ran for one solid year at Daly's Theatre, New York, and is now in its second year in London, at the Vaudeville Theatre. William A. Brady Ltd. makes the production, which is a sufficient guarantee of its excellence.

VESPER

(From the State Center.)

Another chapter was added to the already historic career of the Vesper Safety Clovis & Malleable Iron Co. last week when a petition was filed in the United States court at Madison throwing the affair of the company into bankruptcy proceedings. It appears that some of the principal creditors were not satisfied with the conduct of Fred Vollmar and in order to protect their interests threw the concern into bankruptcy to avoid any further actions in receivership.

The guarantee epidemic in the village has subsided, and is entirely wiped out, so quarantine has been raised. There is not a case, our knowledge in the village. Church services, lodge gatherings, and public meetings will be resumed this week. School will commence after the holidays. School in District No. 78 will open again on Jan. 2.

On Wednesday of this week the following ladies of Grand Rapids took dinner with Mr. and Mrs. P. E. Margatroy: Mesdames Robt. G. Rowland, Henry W. Timm, Ted Chapman, Mrs. Elee and Mrs. Larah Case of Milwaukee.

John A. Hammer of Grand Rapids is now employed at this office. Mr. Hammer came here from the Phillips Bee office.

KELLNER

New Years services were held at the Lutheran church last Monday morning at 10 o'clock. Rev. A. Krascho preached on the text Luc. 2, 21; and after the sermon he read the parochial report of the congregation which was as follows: Paying members 87; baptized 23 children, 25 were confirmed, 8 couples were married and 5 persons buried. For missionary work \$115.95 was contributed.

Mr. and Mrs. Sparhawk and children have moved into one of W. Witt's houses.

Mr. Ely of Spring Creek called at the G. H. Munro home last week.

Farmers, bring your 4 ft. pulp wood to Kellner as G. H. Munro is buying it this winter at \$3.00 per cord. Why not boost your home village.

Miss Martha Baroth of Chicago is visiting with her parents, Mr. and Mrs. Dave Baroth.

Fred Goessell left for Milwaukee last Saturday where he will remain for some time. We wonder why Fred goes to Milwaukee so often.

George Eberhardt has gone to Ladyman where he will be employed for some time.

Herman Krause and family are expected here this week Thursday. They will locate on the W. Witt farm which they recently bought. Consideration private. Mr. Witt will move his family in the vacant house next to the Munro residence.

We wish one and all a happy and prosperous new year.

How is Your Back Bone?

Do you know that the nerves control the functions and co-ordination of all the organs of the human body? That to have a healthy stomach, kidneys, heart, lungs, etc., your nerves must be free from pressure. That this pressure almost invariably occurs at the place where the nerves leave the main cable (spinal cord) thru spinal openings between each two vertebrae due to perhaps one or more subluxations (displacements) of the bones of the spine. Because you have no pain in your back bone is no reason your back bone is in perfect order. If a nerve leading to the stomach or liver is pinched, the corresponding organ supplied by these nerves will be diseased. So before it is too late go to a Chiropractor and have him examine your spine since nearly everyone has some defect or other with his back bone. For all acute and chronic diseases see

Prontiss Ooon of the town of Randolph was a pleasant caller at the Tribune office on Saturday. Mr. Ooon was on his way home from the north where he is engaged in hauling hay, having brought in a load with him, and reports everything moving along nicely.

Under the new weights and measures law effective Jan. 1, it will not be permissible to sell wood by the load. Every lot sold or delivered must contain a certain number of cubic feet. It will also be necessary to give a duplicate ticket with every load of coal, charcoal or coke, and to make no sale whatever except by the weight.

Mike Storck has been under the weather during the past three weeks as the result of some broken ribs. He was unloading some freight at the Northwestern depot when he slipped and fell, striking on his side. He did not know at the time that he had broken two of his ribs, but upon going to work again the strain weakened the broken bones apart and since then he has been taking a layoff to allow things to resume a normal condition.

The people of Black River Falls are getting such a supply of second hand clothing stacked up, that it is coming to be a problem to know what to do with it. People throughout the state seem to have no conception of the real situation. Clothing is not needed; it's trash. The losers in the flood were mostly business men, fellows who lost a life's savings; but in most cases were able to renege their winter apparel. Cash is needed badly to assist them in getting another footing, but old togs are not in the want column just now.

Naughty, But—

They sat on the steps at midnight, two fools that were better off, bed, murmuring honeyed nothings, while the silver moon hung overhead. Two fools with joyous elation swapped the microbes on their lips, and thrilled with a queer sensation from toes to their finger tips. Telling the same stuff over and over that was nothing when it was new; giggling, gushing, and burning, but frozen rough and through. This fond affection the young folks have to one; they think it love; and young and old in every state. The bachelor thinks it is nothing; the old maid says it is vice; and mamma says it is naughty, but the youngsters know it is nice. —Arcade Leader.

Notice to Tax Payers.

—Notice is hereby given to taxpayers that I will be at the city hall on Jan. 2, 1913, and on all week days thereafter during the month of January from 9 to 12 a. m., and 1:30 to 4 p. m. for the purpose of collecting taxes.

Albert Pozorski, who has charge of the L. M. Nash stock farm near Junction City, favored this office with a pleasant call on Thursday. Mr. Pozorski brought down two loads of choice pork, 3800 pounds, which was sold to the Railroad Packing Co.

Invitations have been issued for the approaching marriage of Otto F. Marx and Miss Marie Mathias, which will take place on Wednesday, January 16th from St. Paul's Lutheran church at 2:40 p. m., followed by a reception at the Frank Seehagen home at 5 o'clock.

Joe Jagodzinski of Vesper was a pleasant caller at this office on Thursday. Mr. Jagodzinski, who is employed in the Vesper Silo factory, has a two weeks vacation which he will spend with his family visiting at the home of his parents in the town of Sigel.

Salting Them Down.

Put seven dollars (\$7) in the bank as soon as you can do it; prepare for seasons lean and lank, and you will never rue it. I used to blow my wages as fast as I could earn them; when I had some soads of tin, I made a rush to burn them. I bought all kinds of raiment and shining ties and collars; and then one happy fateful day I pickled seven dollars (\$7). I put those rubles down in the bank—an impulse led me to do it. And now just take this bunch of mine: Go thou likewise and do it. Those seven bones soon called for more, and very soon I had twenty. Each week I put in three or four and soon I'll roll in plenty. Since I began this banking graft my self respect increases: I feel that I'm as big as Taffy; and just as slick as grease is. I am the young man unafraid, the youth with the gay kyoodle, the whole town wants to get my trade, because I have the hoodla. I do not fear the rainy day whereon the broke man hollers; so take my plan go right away and salt down seven dollars (\$7). —Walt Mason.

The Old Place.
(Denver Republican)

I remember, I remember
The farm where I was born;
No autos clung across it,
No chauffeur honked a horn;
We never journeyed toward it,
And braved the summer heat
To see, like modern farmers,
An aviation west.

I remember, I remember
The farm house, old and gray;
It wasn't called a bungalow
Like most such things today;
No architect had planned it,
To cost a thousand score
And run the extras into
Some seven thousand more.

I remember, I remember
The orchard on the hill;
No golfers oiled, like demons,
A gutta serena pill;
No phonograph was scounding
Until well in the morn—
Oh, dreadfully old fashioned
Was the farm where I was born.

Out of the Ordinary.

When a man dies, no matter what his past record may have been, he generally receives a favorable "send-off" by the pastor and editor, but not so with the editor of the Review, Montela, N. Y. His obituary of a deceased resident of his town is as follows:

"Sam Lobdell is dead. Some days ago he was stricken with poisoning from a wound in the neck, received while fighting with his wife when he was drunk. Mrs. Grindole of Eureka and Butts of Olneyville were in attendance, but despite their utmost efforts the poison spread until as a last resort they used the knife. The operation was of no avail, however, and now he ain't any more."

"Sam was a unique character. Only once in a generation is a community pestered with such a human viper, such a mortal X; he was the unsolved conundrum: 'What is he good for?' His only virtue was the persistence of his wickedness; his only excellence the stability of his unpunishment. Booze fighter, chicken-thief, egg stealer, profane and vile of speech to the point of nausea, he was the trade mark of sin, the scion of evil, with no crime but work beyond his capacity."

"He was even worse, but he has gone hence, and it is never our inclination to kick a man when he is down. Yet at death his proverbial look was with him. He goes below just as the whitening frosts and the chilling winds are ushering in a long and tedious season for the good who are left. As was often the case when in life and when in jail, he will keep warm and comfortable at others' expense."

"Well, so long, Sam, and so long as it is long, good luck."

It's A Bad Sign

when poor materials are used in the construction of a building. Making good mortar with poor materials is impossible, and poor mortar means a poor and dangerous building. If you buy your building materials here there will be no danger of your building collapsing. And you ought to buy them, for our reasonable prices leave you no excuse, not even that of fancied economy.

What would be thought of a public official who did not read the papers? Even the criticisms of him are valuable pointers as to how he may render better service.

He is elected to represent the public. The newspapers are the voice of the public.

The paper is a help to every class. The workman may find through it a chance to better his situation. It is an invaluable aid to the housewife in her shopping.

The boy who reads the papers may go some day to the state senate or to congress. The one who does not will vegetate.

WHAT'S THE REASON?

Many Grand Rapids People in Poor Health Without Knowing the Cause.

—There are scores of people who drag on a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Likely their kidneys have fallen behind in their work of filtering the blood and that is the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no better remedy than Doan's Kidney Pills—endorsed by over one hundred thousand people, and by your neighbors in Grand Rapids.

H. J. Giese, Eighth St. S., Grand Rapids, Wis., says: "My experience with Doan's Kidney Pills has been so satisfactory that I can highly recommend them. My back was weak and my kidneys did not do their work properly. Nothing helped me until I took Doan's Kidney Pills. I am grateful to this remedy for restoring me to good health."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Do You Want a Set of Dishes?

The proprietors of the Tribune have a number of 35 piece dinner sets which they are determined to give away to their friends within the next few months.

All you will have to do to get one of these sets of dishes is to secure two paid in advance subscribers to the Tribune, and the dinner set is yours.

These sets cost more than \$1.50 at wholesale, and to show you that this is a fact we will give you \$1.50 for the set after you have won it, if you want to sell it.

Understand that this offer is made for new subscribers, not for renewals or anything of that kind. Just get us two new subscribers and bring us in the \$3.00 with the names and postoffice address and get your set of dishes.

"The Rosary"

—A new play to be produced in this city at Daly's Theatre Thursday, Jan. 11, is "The Rosary" and it has had a successful three months engagement in Chicago; two months in New York City and three months in Boston.

It is from the pen of Edward E. Rose and produced by the well known theatrical managers, Messrs. W. T. Gaskill and Karl G. MacVitty. The play deals with conditions in the American home of today. To prove this, a typical American family is shown. A young wife, a devoted husband, their friends and all the beautiful surroundings that wealth can secure.

Discord enters their home. No one knows whence it came, but it grows into suspicion and doubt; the household is rent and happiness is gone. Then rises the other power, a higher spiritual note which brings the discordant souls of the family back to peace and happiness.

In some homes the cause has only just begun; in others misery and sorrow are always at the door.

Oklahoma Story.

Thirteen children born to them in three years is the distinction claimed by Mr. and Mrs. J. M. Jackson of Oklahoma City. All are living. The fact became known through a complaint made by Jackson that his family's health was endangered by an unhealthy railway depot where they had to wait. Jackson says five of the children were born in one day.

The Jacksons, married fourteen years, had but one child in ten years. Then came twins, followed a year later by triplets, and the following year another set of triplets came. The very next year five children all born the same day arrived. The children are all healthy and intelligent.

Some Prison Facts.

In a lecture delivered in a Ford in the city at the State Prison, Jan. 11, 1913, Rev. Daniel Woodward, warden of the state prison, stated that at the present time the prison contains 725 prisoners, 701 men and 24 women. He said that out of 185 prisoners whose cases he had investigated 88 came from "demoralized homes; 44 came from homes where the conditions were bad subsequent to marriage and only eight of the entire 185 enjoyed good home conditions both before and after marriage.

"Seventy-three of these convicts were Protestants, 58 Roman Catholics, one Jew, and three atheists. Only seven had good religious training, which proves that the church is not giving to the world religious criminals but good citizens. Forty-four of these criminals were illiterate. 88 were educated in the public schools; five high school graduates, and but three college graduates. This likewise proves that the educational institutions of this country are not giving us criminals but good citizens."

Land Not All Developed.

With more than 10,000,000 acres of land awaiting development, the state of Wisconsin cannot well afford to neglect the vast resources and the importance of the land. The state of Wisconsin cannot well afford to neglect the vast resources and the importance of the land. The state of Wisconsin cannot well afford to neglect the vast resources and the importance of the land.

John P. Hume, manager of the Wisconsin Advancement Association, made a trip to Washington last week, taking with him an overwhelming supply of facts and figures to show that, instead of being unavailing, these areas in the northern part of Wisconsin are peculiarly and specially suited to general farming, dairying, and the successful production of many special crops.

Getting First Hand Facts.

Sixty of the Democratic members of the House of Representatives are utilizing the holiday recess to make a first hand study of conditions in the Panama canal zone. Inasmuch as the canal is eating up government money at the rate of several thousands of dollars a day the Democrats hold that it is their duty to see, personally, that this money is being wisely and properly spent.

Best Herd of Shire Mares.

Wisconsin is to have the finest herd of English Shire mares in America according to Dr. A. S. Alexander of the College of Agriculture of the University of Wisconsin. This herd is being formed by John J. Mitchell, of Lake Geneva, owner of the Ceylon Court Stock Farm.

Must Pay Salaries.

A new law adopted by the recent legislature provided that hereafter all town, village and city treasurers shall be paid a salary instead of fees, which have been the recompense in the past in the towns and villages of this country. It will be necessary for the voters to fix the salaries to be paid at the annual meetings to be held next spring and before the towns and village elections. The law makes the paying of salaries obligatory.

A Great Farm.

Greatness in farming does not consist in the great number of acres involved but rather in the greatness of human accomplishments that is involved.

The farm of Mr. T. E. Martin in Monroe county in New York consisting of only 57 acres, has been made so successful that a government bulletin has been prepared by the Agricultural Department which describes the farm in detail. Some of the facts of the future we may review but just now set forth in the bulletin but just now we wish to call attention to the fact that there are over ten miles of tile drain on this 57 acre farm. Here is a fact worth thinking about. The story of this farm as printed in the bulletin is too long for our columns. It is a story of a poor man's triumph over adversity.

1. This story gives the struggles and success of a plain New York farmer who remained on the farm through the "hard times" period and succeeded.

2. The farm was an average one for the section and the owner had all the drawbacks of an ordinary farmer, such as indebtedness, lack of capital, running down land, poor drainage, etc.

3. The organization of this farm is the most striking thing about it, making it one of the best farms in the United States. A well developed systematic plan was followed from the first and carried to success.

4. This farm is thoroughly tile drained with more than ten miles of tile, or 60 rods to the acre, according to a systematic plan followed since 1897.

5. The rotation is the simple one of wheat, clover and potatoes. This is an excellent rotation, because it has two cash crops and one fertility crop every three years.

6. Wheat has averaged 26.6 bushels per acre, for the past twelve years. The past six years show an increase of 5.2 per acre over the previous six years.

7. Clover is the key to the success of this rotation. From uncertain and poor stands, it has become a certainty and averages two to four tons to the acre for the first cutting. The second crop is usually plowed under.

8. Potatoes are the money crop. The average yield per acre for the past nine years has been 282 bushels, as against 182 bushels for the preceding nine years, an increase of 100 bushels per acre due to better drainage, seed selection and better cultivation, fertilizing and spraying methods.

9. Successful farming should be measured not only by financial results but by the resultant productive condition of the soil, the farm home and the farm equipment and conveniences.

10. Measured by net income this farm may be called fairly successful. During the last nine years it has paid the owner an average net return of over \$700 a year, or 7.1 per cent on an investment of \$10,000 and an annual cost of \$300.

11. A good farm home, an exceptionally fine garden, grounds and house orchard and a model small tool equipment are also marks of success.

Perhaps the most striking thing about this farm, outside of its organization, is the remarkable increase shown in the second 9 year period over the preceding 9 year period due to methods employed.

This farm is a conspicuous example of model farming that pays. The secret of success is a well developed systematic plan of organization well followed.

The Bulletin describes this farm in detail consists of 32 pages well illustrated with cuts and diagrams and may be had by sending to the Chief Division of Publications, Washington, D. C., for Farmers' Bulletin 1454.

Hope to Make It Self-Sustaining

As the year draws to a close the best of reports is heard of the Northwest Collegiate Institute at Sherry. The early life of this institution of education and religious training was varied but it has weathered the storm and with the same good results in the future that has been attained the past year it will double its usefulness and be self-sustaining. The farm on which the institution is built contains 500 acres of rich producing lands, 200 acres of which is under cultivation, and more is being cleared. Twenty good cows are being cared for at the present and it is hoped to increase the herd to fifty another summer. Other sources of revenue are derived from a big coop of college bred Rhode Island Reds, an 80-acre sugar bush, gardening and raising various farm products. The effort now being made is to add more room by building and it is understood sufficient support is in sight for carrying out hoped for plans. At present every student room is occupied, with many more to come if accommodations could be had. Once self-sustaining and the dream of the founders will be realized.—Marshall Herald.

"Baby Mine" Coming.

"Baby Mine," Margaret Mayo's hilarious comedy, which is seen for the first time Monday, Jan. 15 at Daly's Theatre, New York, and is now in its second year in London at the Vanderbilt Theatre. William A. Brady Ltd. makes the production, which is a sufficient guarantee of its excellence.

VESPER

Another chapter was added to the already historic career of the Vesper Safety Clovis & Malleable Iron Co. last week when a petition was filed in the United States court at Madison throwing the affairs of the company into bankruptcy proceedings. It appears that some of the principal creditors were not satisfied with the conduct of Fred Vollmar and in order to protect their interests show the concern into bankruptcy to avoid any further actions in receivership.

The quarantine epidemic in the village has subsided, and is entirely wiped out, so quarantine has been raised. There is not a case of our knowledge in the village. Church services, lodge gatherings, and public meetings will be resumed this week. School will commence after the holidays. School in District No. 3 will open again on Jan. 2.

On Wednesday of this week the visiting ladies of Grand Rapids took dinner with Mr. and Mrs. P. E. Murgatroyd. Mesdames Robt. G. Rowland, Henry W. Timm, Ted Chapman, Mrs. Elsie and Mrs. Laura Case of Milwaukee.

RUDOLPH

Many of us are in receipt of beautiful art calendars from the Wood County National Bank from which we extend thanks.

Mrs. Burns and daughter Elizabeth and son, Oba, and father, Frank Russell returned to their home in Stevens Point Thursday morning after spending Xmas at the K. J. Marceau home. Mrs. Burns is a sister of Mrs. Marceau.

Dave Sharkey returned Wednesday from Grand Rapids where he had been visiting his sister since Sunday night.

John Little has been up to Dancy rabbit hunting a few days of late. Any attraction, John?

Mrs. Glenn Cooper of East Rudolph called on Mrs. N. G. Ratelle Thursday afternoon.

Arthur Clark returned Wednesday to Milladore after spending Xmas at home. He and his brother Will are running a mill at that place.

A. J. Knjawa made his customers very pretty Xmas presents in the form of a pretty picture in a chain frame with a thermometer on the right hand side and a calendar in the left hand corner. They are very much appreciated.

Miss Clara Hassell departed Friday for a two weeks visit with her sister Emma in Congress Park, Ill.

Glenn Cooper, a promising young farmer of this place and Miss Selma Kruger of Grand Rapids were quietly married at the home of the bride's parents on Christmas day by Rev. Fred Staff of the Congregational church. Also a surprise to most of her friends they all wish them a long and happy wedded life. They will make their home with his parents. She will finish her school at Babcock.

Miss Mand Moulton of your city has been re-hired to teach in District No. 4.

Seth Whitman and Miss Ethel Peterson went to Tomahawk Wednesday to visit Mrs. Glen Fox.

Fred Plitz and John Little were business callers in your city Thursday.

Howard and Kenneth Ratelle, who have been staying with Mrs. Kater, are now staying at the Paul Fountain home.

Frank Ratelle returned to Rock-Ford Thursday evening after spending a few days here.

The wrestling match that was expected to be Wednesday night won't be until Friday, the 5th. It will be between John Little of this place and Red Hibbard of Marshfield.

New Years day Mr. and Mrs. John Akey held their annual family reunion at which most of their children and a few intimate friends were present.

Mr. and Mrs. Louis Akey and daughter, and Mr. and Mrs. John Woyers and daughter of Grand Rapids, Mr. and Mrs. Ed. Scott of Almond, Mr. and Mrs. Fred Plitz, Mr. and Mrs. Frank Akey and two daughters, Mr. and Mrs. Mose Sharkey, Mrs. Geo. Elliott and John Little of this place.

All members of the E. F. U. don't forget the installation of officers Saturday, Jan. 6th in Marceau's hall.

Mr. and Mrs. Cloesen DeLong of Edgar spent the first of the year with her parents, Mr. and Mrs. Peter Akey. They returned home Wednesday.

Mrs. Ed. Scott and daughter Minnie returned home Monday noon from Tomahawk where she and her husband had spent Xmas with his brother, Albert. He returned last Tuesday.

John, Denis, Lloyd and Gladys Ratelle ate New Years dinner at Grandpa Baker's.

Edna and Cyril Crostean of Bron spent a few days here at the John Golan home.

Mr. and Mrs. Ernest Rayome of Bron visited their parents, Mr. and Mrs. Joe Rayome New Years day.

Mrs. Spalenka and daughter, Mrs. John Wilken and Miss Emily Spalenka of Stevens Point were guests at the A. J. Knjawa home on night last week.

Mrs. Aug. Jacoby and daughter Esther and sons Frank, Albert and Herman took dinner with the Mike Mason family in your city.

KELLNER

New Years services were held at the Lutheran church last Monday morning at 10 o'clock. Rev. A. Kerschke preached on the text Luc. 2, 31; and after the sermon he read the parochial report of the congregation which was as follows: Paying members 87, baptized 23 children, 25 were confirmed, 3 couples were married and 3 persons buried. For missionary work \$115.96 was contributed.

Mr. and Mrs. Sparhawk and children have moved into one of W. Witt's houses.

Mr. Ely of Spring Creek called at the G. H. Munroe home last week. Farmers, bring your 4 ft. pulp wood to Kellner as G. H. Munroe is buying it this winter at \$3.00 per cord. Why not boost your home village?

Miss Martha Barehet of Chicago is visiting with her parents, Mr. and Mrs. Dave Barehet.

Fred Goessel left for Milwaukee last Saturday where he will remain for some time. We wonder why Fred goes to Milwaukee so often.

George Eberhardt has gone to Ladysmith where he will be employed for some time.

Ernest Krane and family are expected here this week Thursday. They will locate on the W. Witt farm which they recently bought. Consideration private. Mr. Witt will move his family in the vacant house next to the Munroe residence.

We wish one and all a happy and prosperous new year.

Show Big Money Deposits.

Last week in pursuance to notice given by the comptroller of currency, all banks were called upon to furnish a financial statement of the condition of their respective institutions. These statements are published that the public generally may know the true character of affairs, and as they are sworn to by the cashier and attested as correct by not less than three of the banks' directors they are accepted as the condition of the financial merits or demerits of the bank. The figures are therefore interesting. In Wood County there are five national and four state banks and if the figures given below, showing the deposits, are a criterion to judge the financial condition of the county in which they exist it tells a great story of prosperity. According to the last census the population of Wood county is given as 30,000. Dividing the total amount of deposits by the total number of inhabitants, it will be seen that if the money was equally divided it would give to each man, woman and child residing in the county about \$120. Following is a list of deposits as given in the statements published a week ago:

Bank	Deposits
Wood County National	\$1,022,211.77
First National Bank	841,694.78
Grand Rapids	706,006.81
Marshallfield	482,058.94
American Nat. Bank	447,787.85
Marshallfield State Bank	176,184.00
Auburnville State Bank	63,978.14
Pittsville State Bank	46,608.07
Vesper State Bank	8,644.60

Total, \$3,788,704.86

"Baby Mine" Coming.

—Of all the columns of praise accorded by the New York and London press to "Baby Mine," which comes to Dally's Theatre, Monday, Jan. 15, none is more appreciated by Margaret Mayo and William A. Brady, respectively author and producer of the play, than the statement of the New York Press that it is "the funniest play ever written." "Baby Mine" runs for one solid year at Dally's Theatre, New York, and is now in the second year in London, at the Vandeville Theatre, where it is breaking all previous records.

How is Your Back Bone?

Do you know that the nerves control the functions and co-ordination of all the organs of the human body? That to have a healthy stomach, kidneys, heart, lungs, etc., your nerves must be free from pressure. That this pressure almost invariably occurs at the place where the nerves leave the spinal cord (spinal cord) three spinal openings between each two vertebrae due to perhaps one or more subluxations (displacements) of the bones of the spine. Because you have no pain in your back bone is no reason your back bone is in perfect order. If a nerve leading to the stomach or liver is pinched, the corresponding organ supplied by these nerves will be diseased. So before it is too late go to a chiropractor and have him examine your spine since nearly everyone has some defect or other with his back bone. For all acute and chronic diseases see

It will also be necessary to give a duplicate ticket with every load of coal, charcoal or coke, and to make no sale whatever except by the weight.

Miko Sierok has been under the weather during the past three weeks as the result of some broken ribs. He was unloading some freight at the Northwestern depot when he slipped and fell, striking on his side. He did not know at the time that he had broken two of his ribs, but upon going to work again the strain wrenched the broken bones apart and since then he has been taking a layoff to allow things to resume a normal condition.

The people of Black River Falls are getting such a supply of second hand clothing stocked up, that it is coming to be a problem to know what to do with it. People throughout the state seem to have no conception of the real situation. Clothing is not needed; it's cash. The losers in the flood were mostly business men, fellows who lost a life's savings, but in most cases were able to rescue their wearing apparel. Cash is needed badly to assist them in getting another footing, but old toys are not in the want column just now.

Naughty, But—

They sat on the steps at midnight, two fools that were better in bed, warming themselves with nothing, while the silver moon hung overhead. Two fools with joyous elation swapped the winter on their lips, and shivered with a queer sensation from toes to their finger tips. Telling the same stuff over and over that was nothing when it was new, giggling, gawling and gawling, but frozen through and through. This fond affection the young folks have to one; they think it love undying and angels in envy stare. The bachelor thinks it is nothing, the old maid says it is vice, and mamma says it is naughty, but the youngsters know it is nice.—Arcade Leader.

Notice to Tax Payers.

—Notice is hereby given to taxpayers that I will be at the city hall on Jan. 2, 1912, and on all week days thereafter during the month of January from 9 to 12 a. m., and 1:30 to 4 p. m. for the purpose of collecting taxes.

Sam Church,
City Treasurer.

Nate Anderson transacted business in Phillips several days the past week.

Mrs. Nate Anderson and children have been visiting with relatives at Needah for a week.

Harry Kumpfert spent several days the past week visiting with his parents in Appleton.

Mrs. A. B. Sator and daughter Ethel are visiting with relatives in Green Bay for a week.

Roy Gormanson of Milwaukee spent several days in the city the past week visiting with his parents.

Alfred Herman of the town of Rudolph was among the business callers at the Tribune office on Saturday.

Miss Myrtle Rowland spent the Christmas vacation in this city with her parents, Mr. and Mrs. Geo. T. Rowland.

G. J. Knolly left last week for northern Minnesota to look after some business for the Keady Manufacturing Co.

Mrs. Jessie Love of Eau Claire arrived in the city on Friday to spend a couple of weeks visiting with friends and relatives.

Mr. and Mrs. Thos. Bratton of the town of Rudolph were in the city on business on Saturday. Both Mr. and Mrs. Bratton are enjoying good health this winter.

Misses Will and Thelma Graichen of Oshkosh visited Nellie and Tamm Hunt several days at the home of their parents. They returned home Tuesday morning.

J. D. Rouse, principal of schools at Ellenville, was a pleasant caller at the Tribune office on Friday, having come over to attend the school board convention on that day.

Rev. C. A. Mellicke was at Keweenaw on Thursday where he officiated at the marriage of Miss Oresma Winslow of Keweenaw and Harry Shipway of Big Bluffs, Adams County.

Raymond Peltier, who has been conducting a meat market in company with W. Pavlick the past six months at Mesquite, has sold out his interest to Mr. Pavlick and returned home.

Courad Evanson, one of the progressive farmers of the town of Rudolph, was a caller at this office on Friday. Before departing Mr. Evanson advanced his subscription for another year.

Rufus H. Milne, who is attending college at Minneapolis, spent several days in this city last week visiting his parents, Rev. and Mrs. M. H. Milne. He returned to Minneapolis on Thursday.

John Phipps of the town of Sigel was a pleasant caller at the Tribune office on Thursday. Mr. Phipps has been laid up with an attack of smallpox but has been all right again for some time past.

Peter Henry of Nebraska, who has been a guest at the home of his brother John Henry the past three months, left on Tuesday morning for a visit at Eau Claire and Minneapolis before returning to his home.

Geoffrey Moberg out his left hand quite badly on Friday while engaged in cutting up some pork at his home. The cut was on the back of his hand and required the services of a surgeon to stop the bleeding.

Miss Lydia Ekland, who has been employed as bookkeeper at the Nash Hardware store for some time, has resigned her position. Her position has been filled by Miss Bertha Gutter who has been in the employ of the Badger Box & Lumber Co's. office.

Albert Pozorski, who has charge of the L. M. Nash stock farm near Junction City, favored this office with a pleasant call on Thursday. Mr. Pozorski brought down two loads of choice pork, 3000 pounds, which was sold to the Reiland Packing Co.

Invitations have been issued for the approaching marriage of Otto F. Marx and Miss Marie Mathieson, which will take place on Wednesday, January 10th from St. Paul's Lutheran church at 2:30 p. m., followed by a reception at the Frank Seehagen home at 6 o'clock.

Joe Jagobinski of Vesper was a pleasant caller at this office on Thursday. Mr. Jagobinski, who is employed in the Vesper Silo factory, has a two weeks vacation which he will spend with his family visiting at the home of his parents in the town of Sigel.

Some Prison Facts.

In a lecture delivered in a Ford car last month recently, Rev. Daniel Woodward, warden of the state prison, stated that at the present time the prison contains 725 prisoners, 701 men and 24 women. He said that out of 135 prisoners whose names he had investigated 88 came from demoralized homes; 44 came from homes where the conditions were bad subsequent to marriage and only eight of the entire 135 enjoyed good home conditions both before and after marriage.

"Seventy-three of these convicts were protestants, 53 Roman Catholics, one a Jew, and three atheists. Only seven had good religious training, which proves that the church is not giving to the world religious criminals but good citizens. Forty-four of these criminals were illiterate. 88 were highly educated in the public schools; five high school graduates, and but three college graduates. This likewise proves that the educational institutions of this country are not giving us criminals but good citizens."

Oklahoma Story.

Thirteen children born to them in three years is the distinction claimed by Mr. and Mrs. J. M. Jackson, of Oklahoma city. All are living. The fact became known through a complaint made by Jackson that his family's health was endangered by an unheated railway depot where they had to wait. Jackson says five of the children were born in one day.

The Jacksons, married fourteen years, had but one child in ten years. Then came twins, followed a year later by triplets, and the following year another set of triplets came. The very next year five children, all born the same day, arrived. The children are all healthy and intelligent.

Salting Them Down.

Put seven dollars (\$7) in the bank as soon as you can do it; prepare for someone loan and bank, and you will never rue it. I used to blow my wages as fast as I could earn them; whenever I had some savings of the kind, I made a rush to burn them. I bought all kinds of raiment and shavings and collars; and then one happy day I picked seven dollars (\$7). I put those rubles down in the bank—an impulse led me to do it. And now just take this bunch of mine: Go thou likewise and do it. Those seven bones soon called for more, and very soon I had twenty. Each week I put in three or four and soon I'll roll in plenty. Since I began this banking game my self respect increases: I feel that I'm as big as Taff; and just as slick as grease is. I am the young man untried, the youth with the any kyoodel, the whole town wants to get my trade, because I have the goods. I do not fear the rainy day anymore the broke man hollers; so take my plan go right away and salt down seven dollars (\$7).—Walt Mason.

The Old Place.
(Denver Republican)

I remember, I remember
The farm where I was born;
No autos clunged across it,
No chauffeur banked a horn;
We never journeyed toward it,
And braved the summer heat
To see, like modern farmers,
An aviation meet.

I remember, I remember
The farm house, old and gray;
It wasn't called a bungalow
Like most such things today;
No architect had planned it
To cost a thousand score
And run the extras into
Some seven thousand more.

I remember, I remember
The orchard on the hill;
No golfers chased, like demons,
A gutta serena pill;
No phonograph was sounding
Until well in the morn—
Oh, dreadfully old fashioned
Was the farm where I was born.

This Paper Will Help You.

What would be thought of a public official who did not read the papers? Even the criticisms of him are valuable pointers as to how he may render better service.

He is elected to represent the public. The newspapers are the voice of the public.

The paper is a help to every class. The workman may find through it a chance to better his situation. It is an invaluable aid to the housewife in her shopping.

The boy who reads the papers may go some day to the state senate or to congress. The one who does not will regret it.

Take the home paper.

WHAT'S THE REASON?

Many Grand Rapids People in Poor Health

—There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, and depression. Likely the kidneys have fallen behind in their work of filtering the blood and that is the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no better remedy than Doan's Kidney Pills—ordered by over one hundred thousand people, and by your neighbors in Grand Rapids.

W. J. Glone, Eighth St. S., Grand Rapids, Wis., says: "My experience with Doan's Kidney Pills has been so satisfactory that I can highly recommend them. My back was weak and my kidneys did not do their work properly. Nothing helped me until I took Doan's Kidney Pills. I am grateful to this remedy for restoring me to good health."

For sale by all dealers. Price 60 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Do You Want a Set of Dishes?

The proprietors of the Tribune have a number of 22 piece dinner sets which they are determined to give away to their friends within the next few months.

All you will have to do to get one of these sets of dishes is to secure two paid in advance subscribers to the Tribune, and the dinner set is yours.

These sets cost more than \$1.50 at wholesale, and to show you that this is a fact we will give you \$1.50 for the set after you have won it, if you want to sell it.

Understand that this offer is made for new subscribers, not for renewals or anything of that kind. Just get us two new subscribers and bring us in the \$2.00 with the names and postoffice address and get your set of dishes.

"The Rosary."

—A new play to be produced in this city at Daily's Theatre Tuesday, Jan. 11 is "The Rosary" and it has had a successful three months engagement in Chicago; two months in New York City and three months in Boston.

It is from the pen of Edward E. Rose and produced by the well known theatrical managers, Messrs. W. T. Gaskell and Karl G. MacVitty. The play deals with conditions in the American home of today. To prove this, a typical American family is shown. A young wife, a devoted husband, their friends and all the beautiful surroundings that wealth can secure.

Discord enters their home. No one knows whence it came, but it grows into suspicion and doubt; the household is rent and happiness is gone. Then rises the other power, a higher spiritual one which brings the discordant souls of the family back to peace and happiness.

In some homes the cause has only just begun; in others misery and sorrow are always at the door.

Out of the Ordinary.

When a man dies, no matter what his past record may have been, he generally receives a favorable "obituary" by the pastor and editor, but not so with the editor of the Review, Monte, N. Y. His obituary of a deceased resident of his town is as follows:

"Sam Lobdell is dead. Some days ago he was stricken with poisoning from a wound in the neck, received while fighting with his wife when he was drunk. Mrs. Grindle of Eureka and Butte of Claryville were in attendance, but despite their utmost efforts the poison spread until as a last resort they used the knife. The operation was of no avail, however, and now he isn't any more."

"Sam was a unique character. Only once in a generation is a community pestered with such a human viper, such a mortal X; he was the evoked condemnation: 'What is he good for?' His only virtue was the persistence of his wickedness; his only excellence the stability of his neuroticism. Began fighting, alienating, thief, egg stealer, profane and vile of speech to the point of nausea, he was the trade mark of sin, the sentiment of an emblem of vice, with an crime but work beyond his capacity."

"He was even worse, but he has gone hence, and it is never our inclination to kick a man when he is down. Yet at death his proverbial look was with him. He goes below just as the whitening frosts and the chilling winds are ushering in a long and tedious season for the good who are left. As was often the case when in life and when in jail, he will keep warm and comfortable at others' expense."

"Well, so long, Sam, and so long as it is long, good luck."

Very Important

It is very important that we start the year right. Of course it is hard to save any money immediately after the holidays, but it is POSSIBLE to put aside at least a dollar or two during January.

Perhaps this can be increased a little each of the following months and the end of 1912 will find you with a nice bank account.

Our Savings Department makes these things possible, and we hope to see you often.

How is Your Back Bone?

Do you know that the nerves control the functions and co-ordination of all the organs of the human body? That to have a healthy stomach, kidneys, heart, lungs, etc., your nerves must be free from pressure. That this pressure almost invariably occurs at the place where the nerves leave the main cable (spinal cord) three spinal openings between each two vertebrae due to perhaps one or more subluxations (displacements) of the bones of the spine. Because you have no pain in your back bone is no reason your back bone is in perfect order. If a nerve leading to the stomach or liver is pinched, the corresponding organ supplied by these nerves will be diseased. So before it is too late go to a Chiropractor and have him examine your spine since nearly everyone has some defect or other with his back bone. For all acute and chronic diseases see

Some Prison Facts.

In a lecture delivered in a Fond du Lac church recently, Rev. Daniel Woodward, warden of the state prison, stated that at the present time the prison contains 725 prisoners, men and 24 women. He said that out of 135 prisoners whose cases he had investigated 83 came from demoralized homes; 44 came from homes where conditions were bad subsequent to marriage and only eight of the entire 135 enjoyed good home conditions both before and after marriage.

"Seventy-three of these convicts were Protestants, 58 Roman Catholics, one Jew, and three atheists. Only seven had good religious training, which proves that the church is not giving to the world religious criminals but good citizens. Forty-four of these criminals were illiterate. 88 were poorly educated in the public schools; five high school graduates, and but three college graduates. This likewise proves that the educational institutions of this country are not giving us criminals but good citizens."

Oklahoma Story.

Thirteen children born to them in three years is the distinction claimed by Mr. and Mrs. J. M. Jackson, of the Oklahoma city. All are living. The first became known through a complaint made by Jackson, that his family's health was endangered by an unhealthy railway depot where they had to wait. Jackson says five of the children were born in one day.

The Jacksons, married fourteen years, had but one child in ten years. They came to Oklahoma in 1901, and after a year, another set of triplets came. The very next year five children, all born the same day, arrived. The children are all healthy and intelligent.

Salting Them Down.

Put seven dollars (\$7) in the bank as soon as you can do it; prepare for seasons lean and bank, and you will never rue it. I used to blow my wages as fast as I could earn them; whenever I had some seeds of tin, I made a rash to burn them. I bought all kinds of raiment and shinin' clothes and collars; and then one happy day I put those rubles down in the bank—no impulse led me to do it. And now just take this bunch of mine: Go thou likewise and do it. Those seven bones soon called for more, and very soon I had twenty. Each week I put in three or four and soon I'll roll in plenty. Since I began this banking graft my self respect increases: I feel that I'm as big as Tart; and just as slick as grease is. I am the young man untraded, the youth with the gay kyoodle, the whole town wants to get my trade, because I have the goods. I do not fear the rainy day whereas the broke man hollers; so take my plan go right away and salt down seven dollars (\$7).—Walt Mason.

The Old Place.
(Denver Republican)

I remember, I remember
The farm where I was born;
No noise charged across it,
No chauffer hooked a horn;
We never journeyed toward it
And braved the summer heat
To see, like modern farmers,
An aviation meet.

I remember, I remember
The farm house, old and gray;
It wasn't called a bungalow
Like most such things today;
No architect had planned it
To cost a thousand score
And run the extras into
Some seven thousand more.

I remember, I remember
The orchard on the hill;
No golfers chased, like demons,
A gutta serena pill;
No phonograph was sounding
Until well in the morn—
Oh, dreadfully old fashioned
Was the farm where I was born.

Out of the Ordinary.

When a man dies, no matter what his past record may have been, he generally receives a favorable "send-off" by the pastor and editor, but not so with the editor of the Review, Montela, N. Y. His obituary of a deceased resident of his town is as follows:

"Sam Lobdell is dead. Some days ago he was stricken with poisoning from a wound in the neck, received while fighting with his wife when he was drunk. Mrs. Grindle of Escabe and Butts of Claryville were in attendance, but despite their utmost efforts the poison spread until at last resort they used the knife. The operation was of no avail, however, and now he isn't any more."

"Sam was a unique character. Only once in a generation is a community pestered with such a human viper, such a mortal X; he was the unsaved conundrum: 'What is he good for?' His only virtue was the persistence of his wickedness; his only excellence the stability of his unpunishment. Boozie fighter, chicken-chief, egg stealer, profane and vile of speech to the point of nausea, he was the trade mark of sin, the sentient emblem of vice, with no crime but work beyond his capacity."

"He was even worse, but he has gone hence, and it is never our inclination to kick a man when he is down. Yet at death his proverbial luck was with him. He goes below just as the whitening frosts and the chilling winds are ushering in a long and tedious season for the good who are left. As was often the case when in life and when in jail, he will keep warm and comfortable at others' expense."

"Well, so long, Sam, and so long as it is long, good luck."

Very Important

It is very important that we start the year right. Of course it is hard to save any money immediately after the holidays, but it is POSSIBLE to put aside at least a dollar or two during January.

Perhaps this can be increased a little each of the following months and the end of 1912 will find you with a nice bank account.

Our Savings Department makes these things possible, and we hope to see you often.

NEVER COUNTED THE GIRLS

Prince's Answer to Question Typical of Life in the Countries of the Orient.

The big nunah flopped and flapped between the nunahs as we sat and talked. Mem-Sahib, who was born in the Caucasus and Georgian and Circassian dignitaries, and so had a happy way with Oriental princes, took us all aboard by suddenly asking the good gray prince how many brothers he had. His highness looked at her with a queer little smile, half tolerant, half amused, and began, with great show of verbiage, to count them on his fingers, first of the right hand, then of the left; after going once or twice round, he halted, started again, then stopped and said:

"I am afraid I must ask my secretary."

Her secretary replied, with dignity:

"Your highness had a hundred and nineteen brothers!"

Mem-Sahib, not with abashed, then asked this good Oriental nobleman concerning his sisters.

He smiled very charmingly, saying:

"I am afraid I do not know, my never counted them!"—Charles Johnston in the Atlantic Monthly.

Her Credit Was Strained.

A young country merchant who had something of a reputation for close figuring was especially attentive to the village schoolmaster.

The young woman had a sweet tooth and was not at all reticent about making the fact known. Accordingly, she hinted to her admirer that a box of chocolates would be greatly appreciated on the occasion of his next visit.

Latter day he was again suggested, "The third time the subject was broached, however, the dispenser of sweets turned a deaf ear to the entreaty."

"I don't know about taking that girl any more candy," he confided to a companion next day. "She's own't the sixty cents for chocolates already!"—Lippincott's Magazine.

Saving Farmer.

A man with New England small town recollections says that one Kansas storekeeper used to pull a fig in two to make the pound weight balance to a hair.

"The same man was also a road contractor and had to provide lunch, to be eaten by the wayside by the farmers who gave their time to the county two or three days a year."

"There was considerable kicking about the lunch, especially the bread and butter."

"I always knew old man Jones was pretty tight," said one farmer, "and I knew that butter is scarce and high, but I didn't think he cut bread with a greasy knife."

He Was the Man.

A young New Haven man, returning home from a health trip to Colorado, told his father about buying a silver mine for \$3,000. "I knew they'd rope you in," exclaimed the old man. "So you were as good as buying a lump of mine."

"Yes, but I didn't lose anything. I formed a company, and sold half the stock to a Connecticut man for \$7,000."

"You did, you did," repeated the old man as he turned white. "I'll bet you the one who bought it 'll bet you are," coolly observed the young man as he crossed his legs and tried to appear very much at home.

WOMAN'S REALM

IN VELVET AND SKUNK

PRETTY COAT JUST NOW IS HEIGHT OF FASHION.

Pictured Model Shows Charming Arrangement of Shawl Collar as an Approved and Decorative Addition to Skirt.

It is not in the least necessary to have one of the very abbreviated coats, writes a Paris authority, and I can promise that you will be equally and infinitely fashionable if you follow your desires, and the lighter and more elegant lines of the pictured model, the skunk bordering of the charmingly arranged shawl collar being contained as a finish for the white coat, and the fur also giving the much approved and decorative completion to the skirt.

And now, as to a touch of color to relieve the black of the velvet and the dark tone of the fur, I would recommend either lake green or powder-blue crepe de chine lining for the skirt (there to be used only for a depth of some half-a-dozen inches) and the coat, while I would advise its further introduction as a narrow edging to the coat lining, the one big and beautiful enamel central button which

by the size of the brushes which are designed to be hung upon it, and for the foundation a piece of wood about a quarter of an inch in thickness should be procured, and the corners rounded with a sharp knife.

In the rack from which our sketch was made the wood was covered with pale blue art linen, in the center of which the design shown was worked in white wax thread.

On either side in the inner part two small brass rings (similar to those used for hanging caps upon the dresser) were screwed, and the rack was edged with a blue and white cord. At the top two small rings are seen on, by which the rack may be suspended from nails in the wall. A third ring might be screwed on in the center between the two brushes, and would be useful for a cat whistle or a button hook.

Fads and Fancies.

In spite of the fact that lace frills were so widely distributed last season they are again featured to a surprising extent.

All kinds of laces appear in different parts of new dresses, and there is a tendency toward the biggest lace Vogue has known for some time.

Prings will be seen on nearly all of the new costumes for afternoon and evening wear on house gowns, negligees, parlors and even on hats.

New Vogue for Pearls.

It is quite the rule now to see rows of pearls appearing from inside the collar. Formerly, when pearls were used, they were worn outside the high collar, but now a new style is in force, and they are worn next to the neck itself, and partly allowed to hang over the front of the collar.

This fashion seems to have come into vogue because of the well known fact that pearls, in order to keep their exquisite luster, should be worn next to the skin.

Orange Returns to Favor

Color That Has for Some Time Been Discarded Is Seen in Fashionable Garments.

An effective touch of orange is, always striking with brown, and this has led to this color, which has been so long neglected, being revived for trimmings, especially in millinery and for very lavish wear in evening dress.

Orange colored gowns and still more cloaks of soft velvet are among the new striking notes of the season, and particularly pleasing when a tone of peach shines through the bloom of the deepened color and the garment is bordered with skunk or sable or brown-toned marabout.

Purple and violet and all the shades within this gamut of color are peculiarly suitable for evening wear, in soft cloths and velvet they look their best, and combined with fur, purple makes a regal garment. One does not know why it should be so, but there is special harmony between purple and all sorts of fur. A chinchilla pelterine, a stole of marten-sable, a scarf of ermine, all alike are more opulent in effect on a background of purple than with any other color, and this is because the reason why dignified mode looks its best in purple gown when fur and lace are added to the richness of color and the soft effectiveness of material.

Cure for Dandruff.

For dandruff—shampoo the hair with the following once every two weeks: Yolks of two eggs beaten in half a pint of lime water. Rinse well and dry with warm towels. Massage is also most beneficial.

Proper Training of Child

Mother's Common Sense Scheme Would Seem to Recommend Itself to All.

A mother who has had great success in bringing up her little girl, and self-help principles that she has always found encouraging her children to grow up to be self-reliant and independent.

To help them she gives her little girls in their bedrooms miniature furniture. The chest of drawers are not too high for the child to reach to the topmost one, and the little ones are taught to put her clothes away neatly in them and to "play" over the process.

The washstand is low enough to be practical, instead of uninteresting and alarmingly high, inviting accidents and causing nervous children not to use it for fear of spilling the water, and the hanging wardrobe has been made even the shortest of the six-year-old possessors can reach. Miniature pictures of this kind gives the child

Wausau.—Good progress is being made in the impeachment of Governor McGowan. It is believed that early next week will see the end. G. L. Carter was the principal witness for the state, telling of the shooting. He said he and Sheriff Radcliffe were making a search of the accused when Imperio drew a revolver and fired, the bullet going into the ground. In backing up from the officers another shot was fired and the sheriff fell wounded. Others pursued and captured the men.

Superior.—Edward Paul, twenty-four, and Sam Polinski, eighteen, were arrested as counterfeiters in Duluth. The police took 46 counterfeit \$5 gold pieces from the pockets of Paul and have, they say, evidence showing that Paul had passed at least two of the bad gold pieces in Superior. Officers say that at least one was passed by Polinski. An abandoned blacksmith shop, in which the men are believed to have had their "plant," was searched and the police located a complete counterfeiting outfit.

Janesville.—A resident of Wisconsin for over fifty years, voting at state and national elections and having held the office of alderman in Janesville, Carl F. Brockhaus has just discovered that through an error in his father not having taken out naturalization papers before he was 21 he was not a citizen of the United States. Mr. Brockhaus made affidavit for his first papers here.

Madison.—Game Warden S. P. Richman of Fountain City and Kempe of Diamond Bluff are staking out the Wisconsin boundary line through Lake Pepin for the guidance of fishermen in paying license fees. Most of the fishermen are taking out licenses in both Minnesota and Wisconsin, so as to keep out of the clutches of the game wardens of either state.

Racine.—Dangling from the end of a rope, the body of Chris Doherty, a contractor, forty years old, was discovered in the basement of an unfinished house on Morey avenue. He was unmarried and prominent in Danish circles, being a member of the Danes society. He leaves a father, three sisters and six brothers, most of them residing in and about Racine.

Madison.—The state live stock sanitary board is releasing the present testers of cattle, of whom there are over 500. The board at a recent meeting decided to release them on the basis of their previous examination.

Fond du Lac.—Engineer J. M. Dowd, this city, had his right arm and nose broken, and Foreman Edward Blaney, North Fond du Lac, was badly bruised in a rear end collision between the Soo line Velvet special and an extra freight half a mile north of Rugby Junction. The wreck was due to the heavy fog.

Madison.—Attorney General Bancroft has returned from New York, where he settled two inheritance tax cases of long standing. One was for \$7,716.64 against the estate of Christian Bors and the other was \$31,178 against the estate of Charles H. Farnham. Both owned stock in Wisconsin.

Green Bay.—Thomas McCabe of the town of Lawrence, while hunting on his farm recently killed a badger. The animal is a fine specimen and weighs about sixty pounds. This is the first time that a badger has been killed in Brown county for a number of years.

Stevens Point.—Because she could not "stand the disgrace of having her wedding postponed" Alice Meyers committed suicide in the office of her fiancé here by drinking acid. Her mother made public a note to this effect, written by Miss Meyers before she took her life.

Elkhorn.—Thomas W. Morefield, who enlisted in the Union army when only fourteen years old and served throughout the war in the Northern Wisconsin heavy artillery, died, aged 54, of pneumonia in addition to a long illness. In 1862 he was served as postmaster in C. A. R. circles for 13 years. Among the surviving children is Deputy United States Marshal C. P. McAffey of Madison.

Madison.—Attorney E. H. Bortom of Milwaukee appeared before the state tax commission and protested against the proposed increase in the assessment of the property of the Grand Trunk Car Ferry company of Milwaukee from \$425,000 to \$600,000. The final assessment of the property of railroads in Wisconsin will probably be announced by the commission next week.

Madison.—The body of Henry P. Howe, Clayton, Barron county, the university freshman who was drowned while skating, was recovered from Lake Monona.

Milwaukee.—In a communication to Governor McGowan, Walter Schinz, chairman of the Milwaukee county Democratic committee, requests a special session of the Wisconsin legislature to enact such legislation as may more effectively permit the selection of municipal officials on a non-partisan basis.

Waukesha.—Mayor G. S. Love received word from the civil service commission at Madison that all of the candidates who took the examination for the office of sealer of weights and measures of this city failed to pass the test. The letter to Mayor Love accompanied instructions to candidates who contemplate taking the examination for that office. The instructions can be obtained by notifying Mayor Love. Another examination will be held the latter part of January.

Kenosha.—The proprietors of all "halley" in the city have signed an agreement to refuse to lease their halls for Sunday dances. The city council had planned to place a ban on the dances when the men themselves removed the necessity of official action. The license contractors of the bonanza rooming houses had the council that wise rooms must be closed up at once and that women must be kept out of saloons unless they desire to drink at the bar or in the general room.

Money Deposits.

Last week in pursuance to notice given by the comptroller of currency, all banks were called upon to furnish a financial statement of the condition of their respective institutions. These statements are published that the public generally may know the true character of affairs, and as they are sworn to by the cashier and attested as correct by not less than three of the banks' directors they are accepted as the condition of the financial merits or demerits of the bank. The figures are therefore interesting. In Wood County there are five national and four state banks and if the figures given are correct, the financial condition of the county in which they exist is telling story of prosperity. According to the last census the population of Wood County is given as 40,000. Dividing the total amount of deposits by the total number of inhabitants, it will be seen that if the money was equally divided it would give to each man, woman and child residing in the county about \$120. Following is a list of deposits as given in the statements published a week ago:

"Baby Mine" Coming.

—Of all the outpourings of praise accorded by the New York and London press to "Baby Mine," which comes to Dally's Theatre, Monday, Jan. 15, none is more appreciated by Margaret Mayo and William A. Brady, respectively author and producer of the play, than the statement of the New York Press that it is "the funniest play ever written." "Baby Mine" ran for one solid year at Dally's Theatre, New York, and is now in its second year in London, at the Vaudeville Theatre, where it is breaking all previous records.

Death of Henry Hillmer.

Henry Hillmer died on Sunday at the home of his daughter, Mrs. Gertrude Gray on the east side after an illness of several weeks. Deceased was 70 years of age. The funeral was held from the west side German Lutheran church at 1:30 on Tuesday. Rev. Nommensen officiating and the remains were interred in the Sigel cemetery.
